

Greenhouse Heating Specialists

Saving money on your fuel bill is easy with the Skanden Multifuel biomass boiler offered exclusively to the greenhouse industry by Thayer Corporation

The choice is yours!

OR

We have researched, tested, and installed a wide variety of biomass boilers. None are better suited to the needs of growers than the Skanden Multifuel boiler. Skanden has developed special alloys and fire grates well suited to the burning of fuel crops and provides an array of efficient automated fuel preparation and conveyance systems.

Thayer is your one stop shop for the *complete* biomass package.
